Summary

Aspiring Data Analyst with a strong foundation in Python, SQL, Excel, Power BI, and data visualization. Skilled in data cleaning, analysis, dashboard development, and extracting actionable insights from datasets. Experienced in developing projects involving sales analysis, stock price prediction, and machine learning. Eager to apply analytical and problem-solving skills to real-world business challenges.

Technical Skills

- **Programming:** Python, SQL
- **Machine Learning & AI:** Scikit-learn, Machine Learning, Generative AI
- **Data Analytics:** Advanced Excel, Pandas, NumPy, Data Cleaning, Data Visualization, Data Preprocessing
- **BI & Visualization:** Power BI, Tableau, Dashboard Development
- **Tools & Platforms:** Jupyter Notebook, Git, GitHub
- **Other:** Web Development

Education

Master of Computer Applications (MCA) Expected 2027
Institute of Industrial and Computer Management and Research (IICMR), Nigdi, Pune – SPPU

Bachelor of Computer Application (BCA) 2025
Karmaveer Bhaurao Patil Institute of Management Studies & Research, Satara – Shivaji University CGPA: 6.59

Projects

Stock Price Prediction *Python, Pandas, NumPy, Scikit-learn, TensorFlow/Keras, LSTM*

- Built an LSTM-based time-series forecasting model to analyze historical stock data and predict future price trends, with visualizations and model performance evaluation.

Sales Data Analysis Dashboard *SQL, Excel, Power BI*

- Analyzed sales trends and performance metrics from raw transactional data and designed an interactive Power BI dashboard delivering key sales insights.

Real Estate Property Management System *React.js, Flask, MySQL, REST API, JWT*

- Developed a full-stack web application for buying, selling, renting, and managing properties with search, filtering, secure JWT authentication, and Google Maps API integration.

Cyber Crime Reporting Portal *HTML, CSS, JavaScript, MySQL*

- Built a web-based portal for reporting cyber crime incidents, tracking complaints, and managing cases, streamlining submission and admin review.

House Rental Management System *HTML, CSS, JavaScript, MySQL*

- Developed a web application to manage rental properties, tenant records, listings, and booking requests, simplifying management for owners and renters.

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- GenAI Powered Data Analytics Job Simulation
- C Programming – A Grade
- Java Programming – A Grade

Achievements / Participation

- Successfully participated in **Digit** and **eMBArk**, inter-college level events organized by KBPIMSR, Satara (2023).
- Presented a seminar on Data Analytics.
